

HEALTH & SAFETY POLICY STATEMENT

- Foynes Engineering Ltd. will ensure that arrangements are in place for the effective planning, development & review of this health & safety policy statement.
- Management will ensure that appropriate systems are developed & maintained for the effective communication of health & safety matters throughout the organisation.
- Foynes Engineering Ltd. will provide the necessary information, instruction & training to employees & others, including temporary staff to ensure their compliance with respect to health & safety.
- Management considers that health & safety rules are equal in importance to all other business functions & will therefore attach equal importance to achieving health & safety targets.
- Foynes Engineering Ltd. will develop the necessary resources in the form of finances, equipment, personnel & time to ensure health & safety. The assistance of expert help will be sought where the necessary skills are not available within the company.
- Foynes Engineering Ltd. will liaise & work with all necessary persons to ensure health & safety. The company will also ensure that all adequate arrangements are in place to ensure the health & safety of visitors.
- Foynes Engineering Ltd. believes in constantly improving health & safety standards & performance. It will, to this end, endeavour to ensure that all relevant statutes, regulations, & codes of practice are complied with. The minimum standards that will be adopted by the company are those required by law, although the company will always seek to exceed these where there is a demonstrable benefit.
- Foynes Engineering Ltd. recognises that safety is the responsibility of everyone within the organisation & is not just a function of management. Supervisors will have specific duties & responsibilities to comply with the letter & spirit of company policy. Employees will have specific responsibilities to take reasonable care of themselves on others who could be affected by their actions & to co-operate with management in achieving the standards required. The company will monitor their performance along with their other duties.
- Foynes Engineering Ltd. will ensure that health & safety is fully integrated into the management & decision-making processes within the organisation.
- Foynes Engineering Ltd. will set up a system to ensure the accidents & “near misses” are fully investigated & appropriate action taken to reduce the likelihood of their occurrence.
- Foynes Engineering Ltd. will ensure that procedures are established to ensure that safe equipment & plant are provided for employees & non-employees.

Brendan O Connor,
Managing Director.
